COMPLETE RESTAURANT GOVERNANCE

High-Velocity Touchscreen Workstation

Vibrant, high-contrast user interface tailored for fast cashiers. Instant F-key shortcuts, visual table maps, rapid KOT dispatch, and native ESC/POS thermal receipt generation in a single seamless console.

FEATURE SUITE

Built For Restaurant Velocity & Precision

Every workflow in Karvaan POS is built by hospitality engineers to eliminate wait times, prevent order leaks, and empower kitchen chefs and dining floor captains.

Lightning Touch Billing

Designed for chaotic peak rushes. Tap, search, or scan items with instant modifier selectors, custom cooking notes, and keyboard hotkeys.

- ✓ Hotkeys: F1 (KOT), F2 (Pre-Bill), F9 (CRM), Esc (Hold)
- ✓ Multi-Tender Payments (Cash, Card, UPI, Ledger Khata)
- ✓ Hold & Park unlimited bills during table waits
- ✓ Item returns & voids protected by Manager PIN override

Visual Floor & Table Map

Live interactive floor plans representing your actual dining space. View seated guests, active order totals, and dining duration timers at a glance.

- ✓ Multi-Zone layouts (AC Hall, Family, Rooftop, Bar)
- ✓ Color-coded states: Vacant, Dining, Billed, Reserved
- ✓ Single-touch table transfer & split-bill merging
- ✓ Covers (guest count) & assigned waiter tracking

Realtime Kitchen KDS

Eliminate lost paper tickets and delayed cooking. Orders pulse straight onto rugged kitchen screens with countdown timers and sound alerts.

- ✓ Multi-Station Routing (Grill, Bar, Pantry, Fryer)
- ✓ SLA Timers (Green <10m, Amber 10–20m, Red >20m)
- ✓ Bump Bar & touch controls with ticket recall history
- ✓ Live acoustic chimes for newly fired items

Delivery & Fleet Dispatch

Full end-to-end delivery pipeline management for direct phone orders, website orders, and in-house rider fleets.

- ✓ Live Kanban (Kitchen → Ready → En Route → Delivered)
- ✓ Smart driver assignment & live delivery time tracking
- ✓ Customer address pin, phone quick-dial & notes
- ✓ Cash-on-Delivery (COD) cash drawer reconciliation

Recipe BOM & Inventory

Raw ingredient tracking down to the gram. Automatic stock depletion upon menu billing stops food theft and maintains tight food margins.

- ✓ Multi-ingredient Bill of Materials (BOM) recipes
- ✓ Automated low-stock alerts & minimum re-order triggers
- ✓ Wastage and shrinkage audit logs with cost analysis
- ✓ Supplier directory, purchase logs & unit costing

Customer CRM & Khata Ledger

Built-in credit account management for regular patrons, corporate tabs, and VIP guests with full payment history.

- ✓ Instant customer phone number lookup & history
- ✓ Digital credit ledger (Khata) with partial settlements
- ✓ Printable customer statements & payment receipts
- ✓ Custom discount tiers & loyalty reward tracking

KITCHEN VELOCITY HUB

Eliminate Kitchen Chaos. Zero Paper Lost.

Karvaan KDS replaces lost kitchen chits and misread handwriting with high-definition digital order dispatch. Stations receive item-level orders instantly via local WebSockets the second the waiter presses "Send KOT". Color-coded SLA countdowns ensure dishes arrive hot and synchronized.

- Auto SLA Timers
- Sound Chime Alerts
- Multi-Station Routing
- One-Click Recall
- Average Prep Analytics

MULTI-TERMINAL LAN MESH

Table-Side Service. Zero Trips to Cashier.

Equip floor captains and waitstaff with any lightweight Android or iOS tablet or phone. Waiters view live occupied tables, record customer custom modifiers (extra cheese, no onions), and fire KOT tickets straight to the kitchen bar from the guest's table. Everything synchronizes over local Wi-Fi with zero delay.

- Tablet & Phone Support
- Instant LAN Pairing
- Waiter PIN Authentication
- Table-Side Pre-Bill
- 100% Offline Mesh

ADVANCED CAPABILITIES

End-to-End Enterprise Governance

Everything your restaurant management needs to scale from a single boutique bistro to multi-chain franchises.

Combo Studio & Modifiers

Build complex meal bundles (e.g. Burger + Side + Beverage) with mandatory choice rules and dynamic pricing.

- ✓ Configurable Addon Groups (Sauces, Size upgrades)
- ✓ Instant 86-List: lock out sold-out items across all screens
- ✓ Veg / Non-veg badges, spice indicators & tax rates

Customer Parcel Queue TV

Dedicated customer-facing screen for waiting takeaway diners. Clear visual and acoustic token callouts.

- ✓ High-visibility "Now Cooking" vs "Ready for Pickup"
- ✓ Full-screen TV mode with automated chime callouts
- ✓ QR receipt verification for customer pickup validation

Multi-Branch Super Admin

Manage multiple outlet branches, licensing, central menus, and global performance from a unified master dashboard.

- ✓ Cross-branch revenue & product sales benchmarking
- ✓ Role-based tenant isolation & permission matrices
- ✓ Push master menu updates across all locations

Security & Z-Report Shift Audits

Defend against internal shrinkage with tight role restrictions, supervisor PIN authorizations, and cash drawer reconciliations.

- ✓ Roles: Owner, Manager, Cashier, Waiter, KDS Chef
- ✓ Anti-theft supervisor approvals for bill discounts & voids
- ✓ Z-Report day closing with cash variance auditing

Fail-Safe Database Protection

Never risk losing your sales history or recipe databases. Automated background snapshots with one-click restoration.

- ✓ Encrypted SQLite / embedded database engine
- ✓ Automated day-close backups to external storage/USB
- ✓ Zero cloud subscription required for full safety

QR Code Table Ordering

Empower guests to scan table QR codes on their own smartphones, browse high-res menus, and submit orders directly to KDS.

- ✓ Individual QR code generated for every dining table
- ✓ Contactless self-ordering reduces staff load during peaks
- ✓ Direct sync into billing cart and kitchen screens

PLUG & PLAY HARDWARE

Engineered For Industrial POS Hardware

Karvaan POS interfaces directly with standard industry POS hardware. No proprietary locked-in devices required.

Thermal ESC/POS Printers

Direct high-speed printing for 80mm & 58mm rolls over USB, RS232 Serial COM, and Network Ethernet/LAN.

Electronic Cash Drawers

Automatic pulse trigger kicks drawer open upon bill settlement or cash drops, with manual manager key override.

Kitchen KOT Printers

Independent station routing to print KOTs to specific kitchen, grill, or bar counters with custom large font modifiers.

Barcode & QR Scanners

Plug-and-play USB HID keyboard wedge mode for instant scanning of retail merchandise, packaged foods, and loyalty cards.

TECHNICAL ADVANTAGE

Karvaan POS vs Traditional Cloud-Only POS

Why leading restaurateurs refuse to gamble their busy service hours on cloud-dependent POS systems.

ARCHITECTURE METRIC	KARVAAN POS (LOCAL-FIRST REALTIME)	TYPICAL CLOUD POS SYSTEMS
Internet Outage Handling	✓ 100% Uninterrupted (Billing & KDS run locally)	✗ Operations halt; terminals freeze or spin
Transaction Latency	✓ < 5 milliseconds (Instant touch response)	✗ 500ms – 3000ms internet roundtrip delay
Multi-Terminal Sync	✓ Sub-second LAN WebSocket broadcast	✗ Cloud polling; frequent desync issues
Hardware Printer Support	✓ Direct USB, Serial & LAN ESC/POS drivers	✗ Requires complex print cloud bridges or applets
Recurring Cloud Bill Trap	✓ Ownership freedom; zero hostage data	✗ Costly monthly subscriptions per terminal
Data Privacy & Sovereignty	✓ 100% On-Premise; stored in your premises	✗ Stored on third-party public cloud servers
Chef KDS & Bump Bar	✓ Real-time zero-lag ticket updates with SLA timers	✗ Frequent delayed ticket delivery

SPECIFICATIONS

Deployment Models & Hardware Specs

Flexible deployment across existing laptops, all-in-one POS terminals, and modern mobile tablets.

Master Billing Counter

Runs the central high-speed sidecar engine and manages peripheral devices.

- ✓ OS: Windows 10 / 11 (64-bit)
- ✓ RAM: 4GB minimum (8GB recommended)
- ✓ Storage: 10GB free SSD space
- ✓ Display: 1366×768 to 1920×1080 Touchscreen

Waiter Mobility Devices

Lightweight handhelds for tableside order capture and instant KOT dispatch.

- ✓ OS: Android 9+ / iOS 14+ / Windows Tablet
- ✓ Connectivity: Local 5GHz / 2.4GHz Wi-Fi
- ✓ Screen: 7" to 11" handheld tablets or smartphones
- ✓ Zero app installation needed via local browser

Kitchen & Pickup Displays

Commercial kitchen monitors and customer-facing waiting area screens.

- ✓ Hardware: Smart TV, Touch Monitor, or Tablet
- ✓ Input: Touchscreen or USB Bump Bar keypad
- ✓ Audio: Integrated speaker for loud chime alerts
- ✓ Mount: Standard VESA wall or kitchen pass arm
